Funky Hair Portraits:
Lundavra SS students designed their funky hair portraits in Art lessons this year. To complete the project they needed to:

- Have the teacher draw a circle on an A3 piece of paper
- The students cut out facial features
- The students coloured the funky faces with oil pastilles
- The students glued the facial features on to the funky faces
- Students waited for the glue to dry
- The students got straws and dipped the straws in food colouring and blew the food colouring onto the funky faces as hair
- Students had to wait for them to dry

The activity was fun! One student nearly fainted due to blowing the food colouring so hard.
